## Strategic Building of the Executive Unit

## Strategic Building of the Executive Unit

The Executive Unit hope to more professional and more developed administrative body to address displacement and camps management in accordance with international standards and in line with the requirements of national visions and policies. The unit's strategic objectives are embodied in accordance with the national policy to address internal displacement in the Republic of Yemen as follows:

- Protect civilians from involuntary displacement and prepare for any possible displacement.
- Protect and assist IDPs during displacement and support communities affected by displacement.
- Create appropriate conditions for safe, voluntary and durable solutions to displacement.

## The Vision

Professionalism in dealing with displacement and managing displacement camps in accordance with national and international standards.

## Mission

An integrated and effective response to displacement in Yemen that emphasizes the rights of IDPs and the responsibilities of the authorities towards them based on transparency, accountability and confidentiality to ensure the provision of high-quality services.

## Valus

### Transparency

Availability of all information about regulations and statistics on displacement, camps, IDPs, humanitarian aid of all kinds and forms, intervening organizations, and facilitating access to information.

### Responsibility & Accountability

The Executive Unit is actively committed to placing all its leaders and employees at all levels in accountability to society Ensure the quality of the response and provide relevant results, acknowledge any failures or errors that occur while doing so and take full responsibility.

### Confidentiality of personal data

Confidentiality of personal data: The Executive Unit ensures that the personal data of the displaced that has been collected by the unit is kept confidential, and that it is not published or enabled by any party to access it except with the consent of the IDPs.

### Quality

It is a set of characteristics and specifications that characterize the services provided by the executive unit to the displaced, and that meet the expressed and implicit desires and requirements of stakeholders in the appropriate time and form.

## Introduction

The Executive Unit for the Management of IDPs Camps in Marib Governorate worked during the year 2022 AD with all efforts and energies to make the humanitarian operation a success in Marib Governorate, as a result of the emergency and exceptional circumstances that the governorate experienced during the past years due to the systematic process, the continuous escalation and the violations committed by the terrorist Houthi militia against civilians in the governorate, including IDPs and the host community. And what these events produced of a bitter human reality that exceeds the capabilities and capabilities of the local authority, but with all effort and determination and with the generous patronage of Major General / Sultan bin Ali Al-Arada, member of the Presidential Leadership Council, and the Governor of Marib Governorate and with us all sectors and official offices, we worked to mobilize efforts and arrangements necessary to overcome part of the severity of the gaps and humanitarian needs under continuity of the flow of emergency of displacement, and we have worked patiently and dedicatedly with all the workers and volunteers of the unit to carry out the monitoring, tracking and registration process for IDPs and needy households, and we have shown the difficult humanitarian conditions in the governorate, and the support and assistance required by the stage From all partners and humanitarian workers inside and outside the governorate Over time, the executive unit has been the link between organizations and households needed through communication, coordination, continuous facilitation, provision of the necessary assistance, and raising the needs on a regular basis. In addition to the unit carrying out the process of arranging the management of sectors, sites and displacement camps, appointing male and female community committees, building and raising the capabilities of workers in the field, holding periodic meetings and coordination meetings to understand the standards of humanitarian work, accomplishing a lot of field work in the sites and camps of the IDPs, and providing all aspects of coordination and facilitation for all Humanitarian partners in the governorate

As we review the annual report for the year 2022 AD, we would like to extend our thanks and appreciation to everyone who contributed and helped in the success of our work from official and civil authorities and local and international organizations, and thanks are extended to all employees of the Executive Unit in the office, directorates, departments of sectors, sites and camps, who exerted all their effort and time in order to success the humanitarian task .

We are in current year 2023 AD, we hope that all humanitarian partners, local and international, will provide a lot of humanitarian support, and redouble and intensify efforts to save the lives of thousands of IDP and needy households in Marib Governorate.

## Manager's speech

**Saif Muthanaa**  
General Manager

It is with great pleasure that I present to you the annual report of the Executive Unit for the management of displaced camps in Marib governorate to review the general situation of humanitarian work and the achievements and progress made by the executive unit through the coordination of activities, programs and humanitarian services over the past year.2022, and under the generous patronage of Major General / Sultan bin Ali Al-Arada, member of the Presidential Leadership Council, the Governor of Ma'rib Governorate and the Head of the Executive Unit for the Management of IDPs Persons Camps, Mr. Najeeb Al-Saadi, and with us all sectors and official offices in the governorate.

Over the past years, our office and field team has worked closely with local and international offices and organizations to raise the level of performance of humanitarian work and help IDPs and needy households in the governorate with basic life-saving services, and despite all the humanitarian efforts that have been made, there is still a shortage and a big gap in covering all needs There are many challenges we face, some of which are the insufficient capabilities of partners to cover all needs, weak services and activities in most areas, limited resources and support, and constant threats facing the lives of IDPs in various fields.

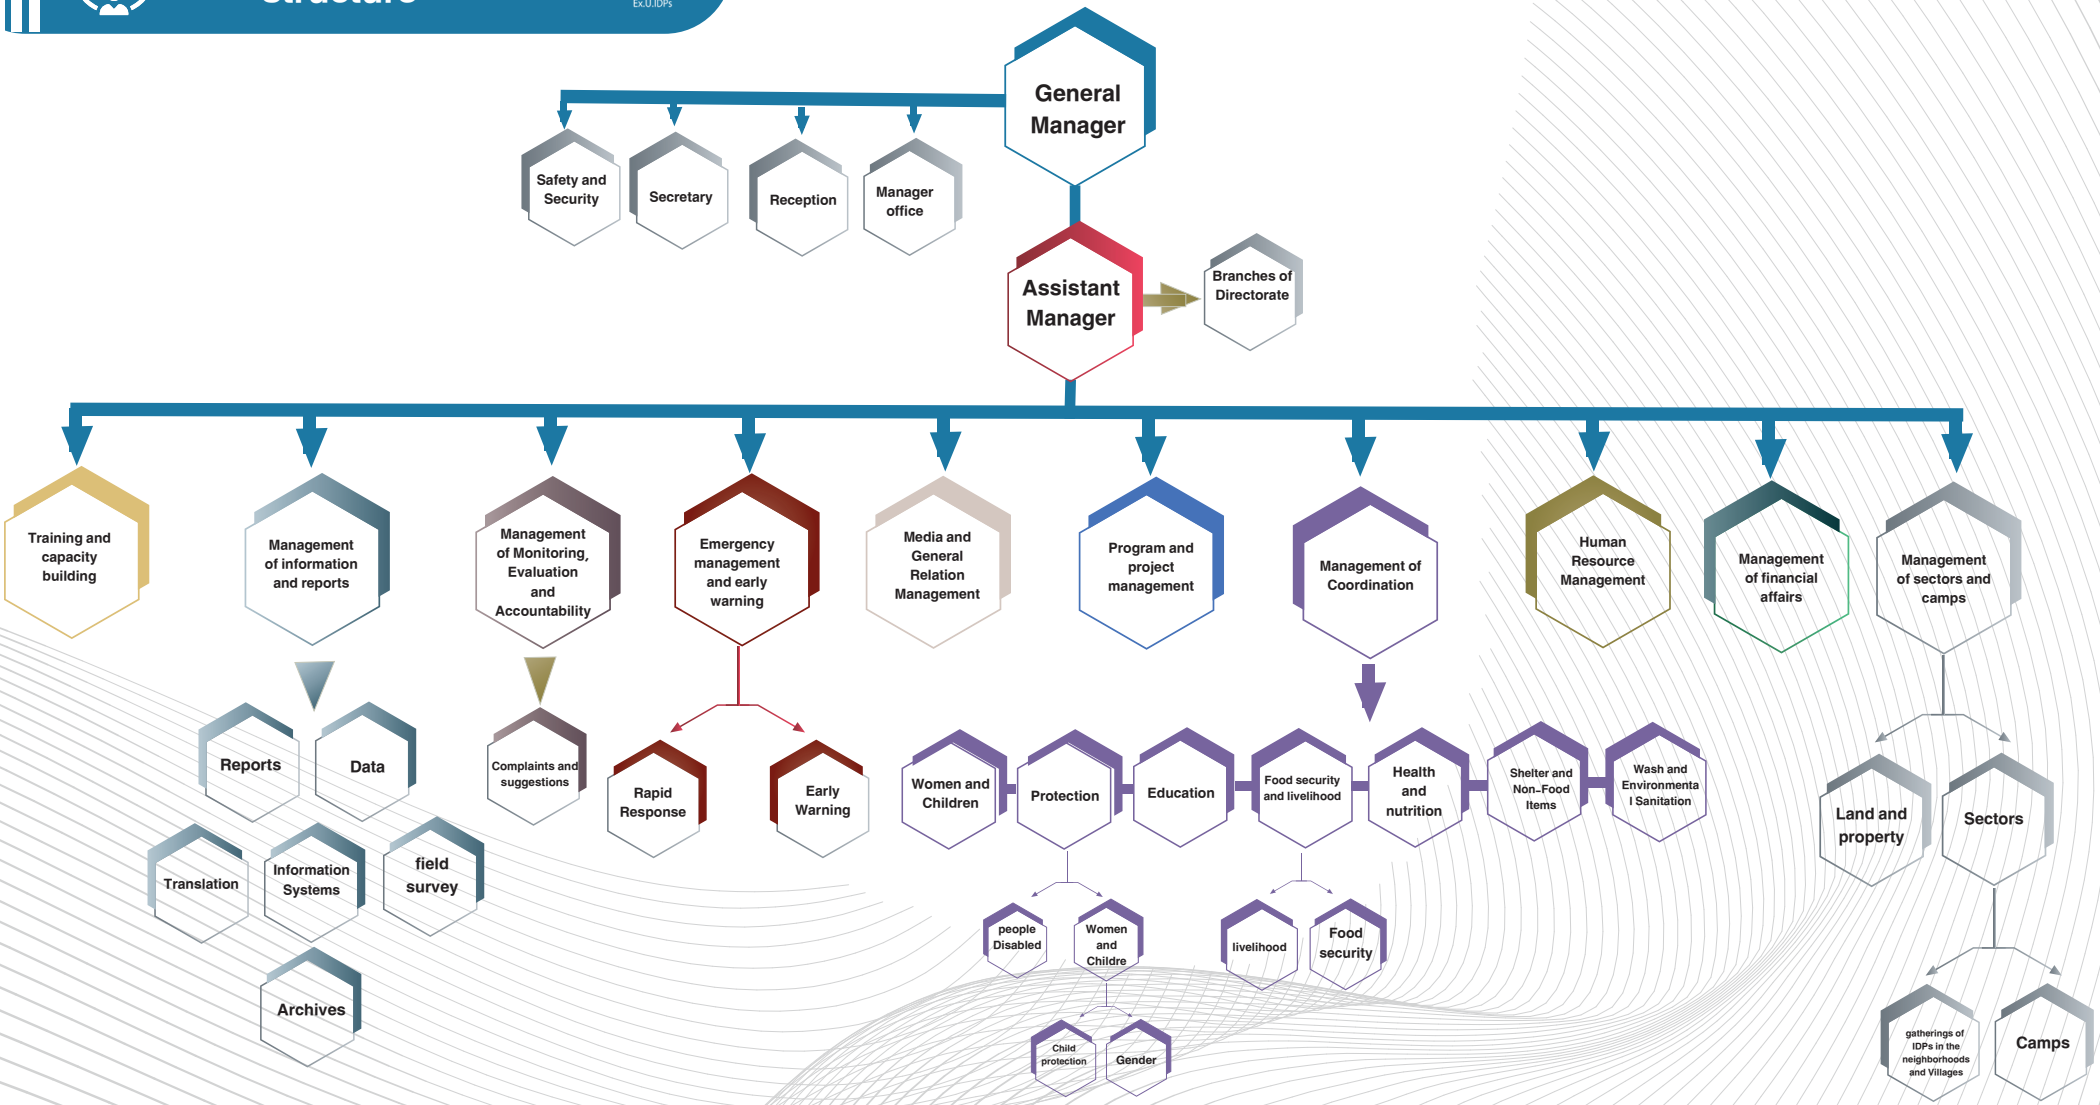

In light of these challenges, I would like to ask the dear donors and financiers to intensify continuous support for the efforts of the local authority and organizations working in the governorate, and to provide IDPs and needy households with the best living conditions that preserve their lives and dignity, and achieve recovery, early recovery, and the continuity of a decent life.

In conclusion, I would like to express my gratitude to the local authority and all international and local organizations and donors for your efforts and hard work towards the humanitarian situation in Marib Governorate, and your contribution to alleviating the suffering of IDPs households through your projects and humanitarian services in all fields, and I am confident in continuing and increasing your continuous support, and we will be able, God willing From overcoming the challenges facing IDPs and the needy and giving them life and a decent life.

# New Displacement

January-December

2022

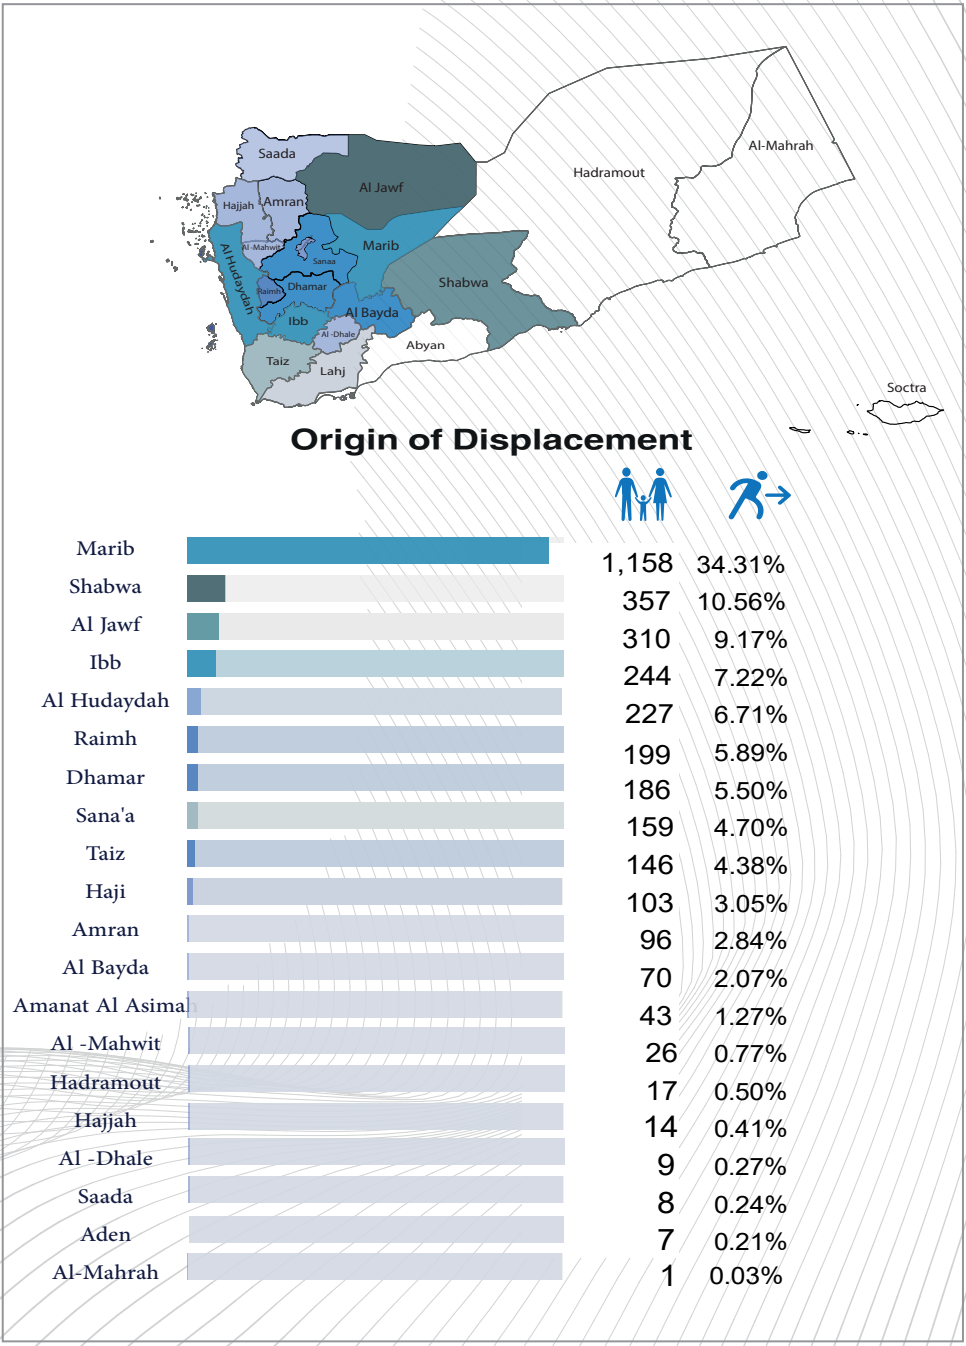

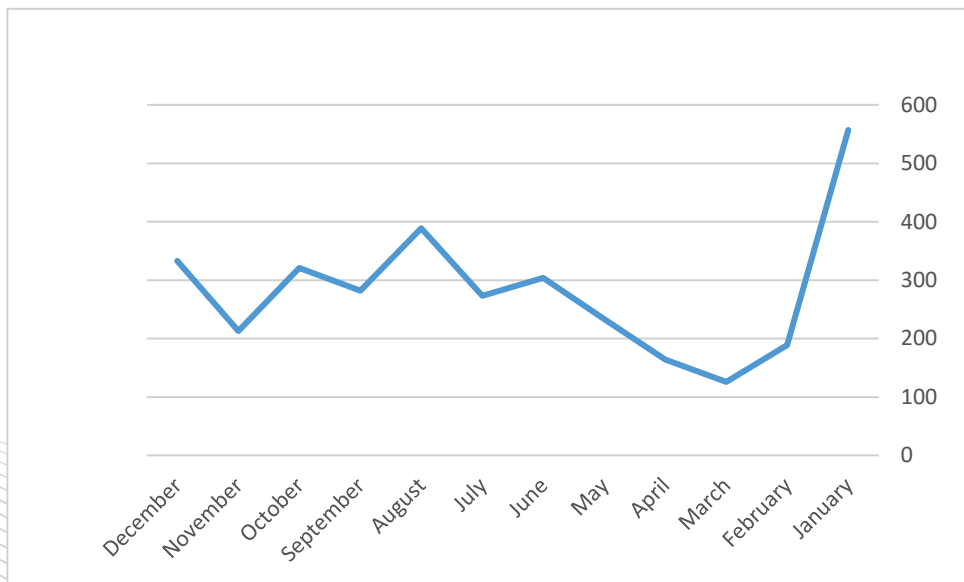

The movement of displacement continued from a large number of governorates to Marib governorate after the conditions of these households worsened, and most of the reasons were distributed between arbitrary arrests, illegal prosecutions, recruitment of children, and violations committed by the Houthi militia in the areas under their control. Dozens of households flock every month in search of safety, housing, freedom, and living in peace. The Executive Unit tracks new displacements, monitors them and assesses their needs, coordinates with humanitarian agencies and sub-clusters, and sends lists containing data of newly IDPs households to ensure their protection, provide basic humanitarian services, and seek to provide them with life and a decent life.

# Institutional Construction

# Institutional Construction

Institutional development is a structured approach to improving the efficiency and effectiveness of institutions that involves changes in the structure, culture and processes of the institution

Its strategies for improving its overall performance in today's changing business environment are increasingly important for enterprises to evolve continuously and adapt.

To remain competitive, the Executive Unit for the Management of the Governorate's Camps for IDPs will pay close attention to the process of rehabilitation and development of staff.

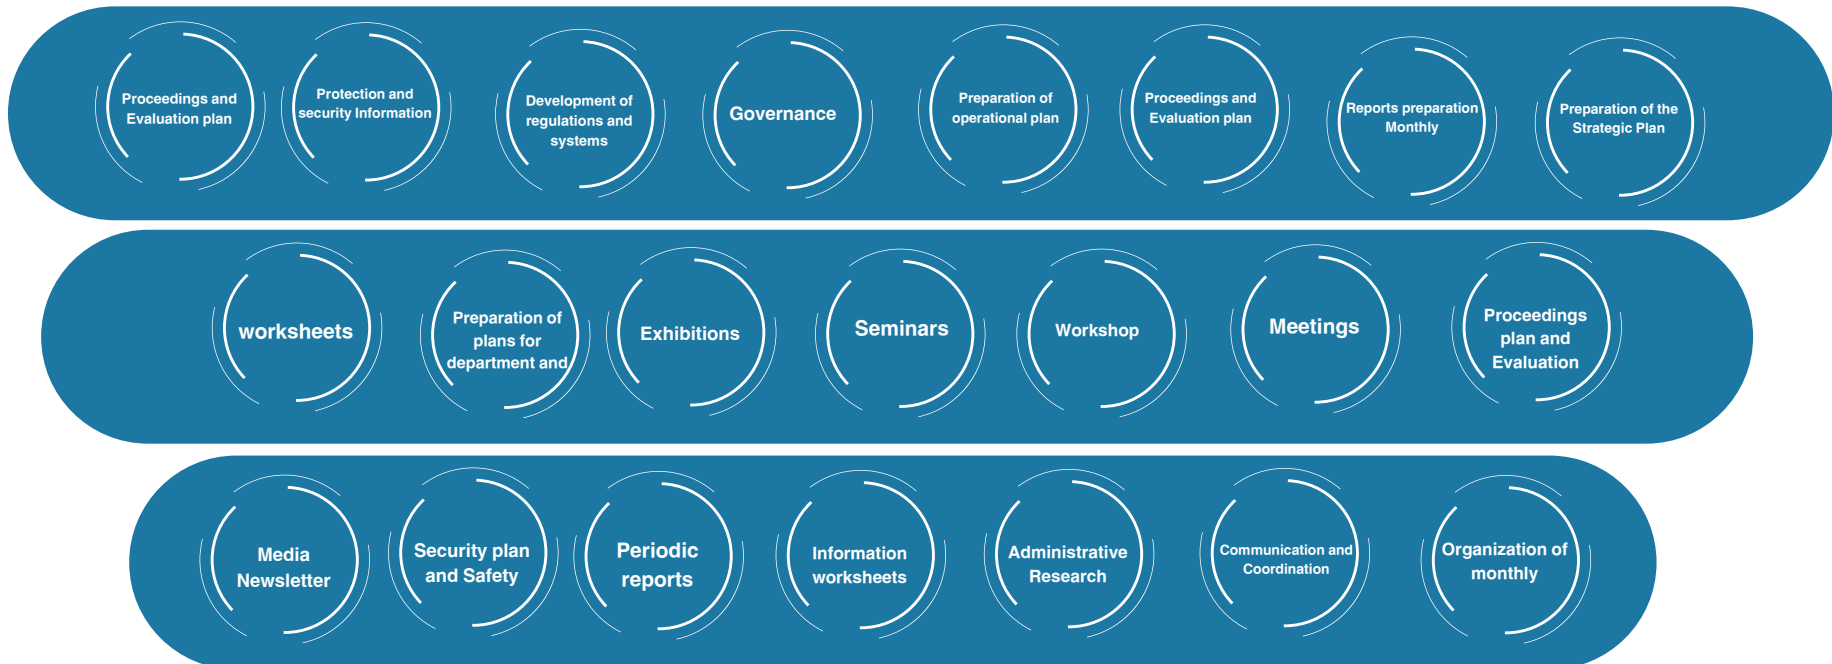

The Office's management and the management of sectors, sites and camps are critical to the targeting and correction of a management process. In particular, Marib Governorate adds approximately 52% of total displacement.

Republic of Yemen. In this area, the Executive Unit has begun to organize and develop administrative and technical capacities and to familiarize itself with standards and mechanisms for humanitarian action.

In all sections, in addition to continuing training of a team of volunteers working in survey, evaluation, coordination, verification and data collection

Effective and efficient service entitlement that reflects the Unit's belief in its humanitarian and ethical duties for all functions entrusted to its office

Through a package of activities and programs the process of building and institutional upgrading, the most important of which are as follows:

Ex.U.IDPs

# Emergency

## Emergency Section

Within the framework of the humanitarian efforts made by the Executive Unit for the Management of IDPs Camps, and as a result of the emergency effects in the course of humanitarian action, The unit worked to establish a special section for emergencies, which aims to provide emergency coordination services and facilitate the partners' response mechanism to accidents.

And disasters for the affected households, especially with the increase in fire incidents in the camps, which caused a lot of human and material losses, and created

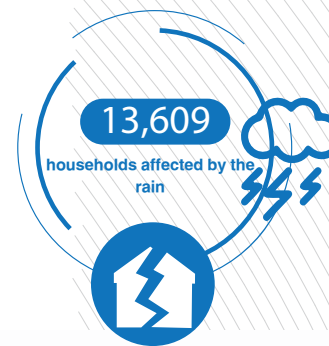

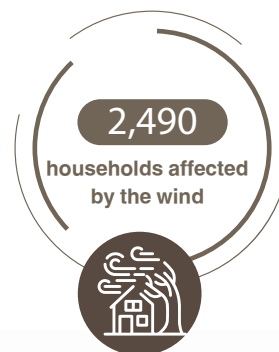

In addition to the climatic changes that the governorate is witnessing, and the repercussions of floods, rains, storms and winds, of damages in the camps and residential neighborhoods, which necessitated the existence of this section in the Executive Unit to deal with these phenomena.

Monitoring, tracking and evaluating their conditions, and the participation of the local authority and humanitarian agencies in all these emergency assessments.

## Emergency recommendations in the education sector

- Directing efforts towards finding good and appropriate educational opportunities by supporting the Education Office with the necessary technical capabilities.
- Encourage IDPs households for children and women to receive education and provide psychological and material support to provide an appropriate educational environment.
- Adopting school feeding for all children in schools .
- Work on establishing new schools to keep pace with the large increase in enrollment in public education, with the need to pay attention to its expansion and rehabilitation of existing educational facilities, and to cover displacement camps with alternative classes.

### Emergency recommendations in the health and nutrition

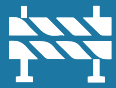

- Providing technical and material support to the Health and Population Office in the governorate to increase the effectiveness of existing facilities, improve their services and provide them with the necessary supplies.
- Work to provide available and easy-to-reach companionship services to the camps in a good way, and pay attention to the health of the mother and child.
- Establishment of a center for the treatment of heart diseases, a center for the treatment of cancerous tumors, and a center for the treatment of mental and psychological diseases in the governorate, due to the urgent need for it.
- Establishing a center for burns and cosmetics, due to the large number of fire accidents in the camps.
- Support health centers and facilities to provide permanent services.
- Training and qualifying midwives in IDPs sites.

# Challenges

## Challenges

**Increasing the population density in the governorate and the pressure on basic services in under the limited**

**Weak participation of specialized official offices in planning humanitarian projects in various fields of importance, and directing donor funds to projects of highest priority according to the Humanitarian Response Plan for Marib Governorate.**

**lack of multiple stock for emergency assistances and urgent interventions to confront emergencies and disasters.**

**The majority of international organizations do not have major branches in the governorate to adopt integrated humanitarian projects according to needs, which made their interventions limited and insignificant.**

**weakness response in all humanitarian sectors by international and local partners compared to the size of displacement and the constant need.**

**accreditation of UN organizations and the Office for the Coordination of Humanitarian Affairs on incorrect statistics regarding the numbers of displacement and population in the governorate, which affected the performance and weakness of the humanitarian response process.**

**lack of lands designated for the state to house the displaced in, since the governorate receives IDPs continuously, and there are camps established in government facilities that need urgent treatment to provide suitable alternative places.**

**Weakness of the executive unit's resources and capabilities, due to the lack of operational expenses and budget for the executive unit office in the governorate.**

# Recommendations

## Recommendation

**Adopt strategies and priorities to enhance basic services, and raise the efficiency of resources and capabilities to bridge the needs gap in all humanitarian fields.**

**Transition and transformation of recovery projects in all sectors and humanitarian projects and reduce emergency projects according to urgent needs.**

**Directing donor finance to high-priority projects according to the humanitarian response plan that was prepared by the local authority in Marib governorate, and the participation of specialized offices in planning and designing humanitarian projects in various fields.**

**necessity of mobilization efforts and work to provide multiple stocks for emergency assistances for special urgent interventions to confront emergencies and disasters.**

**Opening major branches of international organizations in the governorate to adopt integrated humanitarian projects according to the needs and speed of the humanitarian response.**

**We hope that the government and the local authority to find land to build residential cities to accommodate the needy IDPs, and to address the situation of displaced households in public service facilities.**

**We call on UN organizations and the Office for the Coordination of Humanitarian Affairs to rely on the statistics issued by the official offices in the governorate (planning and international cooperation - statistics - the executive unit) with regard to the numbers of displacement and population in the governorate.**

**Enhancing the Executive Unit's resources and capabilities, and approving operating expenses and budget for its office in the governorate.**

## Media supplement for the most prominent activities and events

**Visiting of the parliamentary committee to the office of the Executive Unit**

**Meeting with the Deputy of the Marib Governorate for Administrative Affairs, Abdullah Al-Bakry**

Meeting of the Security and Agricultural cluster in Marib Governorate

## Conclusion

At the end of the annual report for the year 2022 AD, in which we put the butter of hard work throughout the year, it was prepared to summarize the activities undertaken by the Executive Unit in all areas related to humanitarian work in Marib Governorate, and the report contained a brief description of the most prominent performance indicators, and briefly reflected the humanitarian role of the Executive Unit During the year 2022 AD, and its coordination and facilitation of humanitarian aid access to the needy and bridging the basic gaps, and directing the humanitarian response process provided by humanitarian partners to IDPs households need according to priorities and needs, and in order to highlight this effort to everyone, the report contains all the achievements and humanitarian work done and mainly reflects the rescued humanitarian needs For life, the Executive Unit has worked closely with all humanitarian agencies to support all efforts aimed at addressing the humanitarian conditions of the displaced and the poorest households.

The report touched on the most important milestones and numbers surrounding the aspect of humanitarian work, in particular in Marib Governorate, and it sent a set of challenges and recommendations related to all humanitarian issues that we hope to implement and the speed of the humanitarian response to them. Finally, we hope that we have succeeded in the task entrusted to us, thanking all the efforts that We have made efforts to accomplish this work, and we tell everyone to give more to serve the humanitarian work and to stand up to the displacement crisis and its conditions and challenges in Marib governorate.
